PROFESSIONAL EXPERIENCE

Uncheckd.com — Self-Employed 2004-Present

Freelance Graphic Design/Interactive Design/Motion Graphics

A majority of my time in the last few years has been focused on designing and building interactive flash product tours, flash timeline animation projects, interactive product tours, and recently converting over to HTML and JQuery. I have done a considerable amount of photo retouching in PhotoShop, and some product recoloring. I also create digital art and paint on canvas.

GorgeMedia 2002-2004

Graphic Designer, Flash Designer and Developer

Helped design and develop a lot of interactive Flash demos and trainings. We also created a lot of CD/DVD menu driven projects with video and document links. Another common project was creating graphics for PPT presentations.

IPT ComputerLand / Smart Technology 1997-2002

Graphic Design, Web Design, Flash Developer

My responsibilities were varied here. I started out doing web design. I created printed materials for sales reps, trade shows and events. I designed and developed installation CD's for software using Flash and Visual Basic.
